

AeroFuel AI Enterprise - Flight Report

Prediction Summary

Estimated Fuel Consumption: 7,677.55 kg

Estimated CO2 Emissions: 24,261.05 kg

Flight Parameters

distance: 1500

weight: 80000

engines: 2

thrust: 30000

speed: 800

altitude: 35000

This report was generated using the AeroFuel AI gradient boosting model. Values are estimations and should not be used as the sole basis for flight planning.
